Reminiscence

Dear Parents,

At school teachers are the guides of children and at home, parents are the educator and destiny makers for their children. Our task is similar and our efforts are but complementary, aiming at a common goal.

This volume of the news letter reflects that how effectively we both are performing our responsibilities. As in our changed education system up to class X, you will agree that we have to work in a partnership for the holistic development of a child.

So lend your helping hand and together we give your children The Very Best.

With best wishes.

Your Partner in common endeavor,

Parveen Kumar Patpatia

Principal

Dear Parents,

Real education encompasses much more than classrooms teaching. If we aim to nurture socially conscientious, patriotic, multifaceted and balanced personalities, that is guiding spirit of our esteemed institution, it is imperative to expose our budding leaders to diverse activities. We make conscious effort to encourage our students to participate in cultural activities, sports, numerous competitions, quizzes, picnics and excursions trips. It is our unstinted belief that such participation will not only unearth hidden talents, but also inculcate qualities such as team spirit, sense of curiosity and value system of honest efforts. We seek parent's help in our endeavor of developing such wonderful future citizens we all will be proud of.
